CHETAN SINGH

LENDING PRODUCT MANAGEMENT | DIGITAL LENDING | AI & AUTOMATION

Mumbai, India | 9372045441 | chetansingh8369@gmail.com
LinkedIn | **GitHub** | **Portfolio**

SUMMARY

Fintech product and innovation professional with **4+ years** of experience across **digital lending**, loan funnel optimisation, customer journey improvements and AI-driven automation. Partner with Product, Engineering and AI teams to identify lending journey friction, ship customer-facing improvements and improve conversion and servicing efficiency.

EXPERIENCE

LenDenClub

Mumbai, India

Innovation & Process Improvement — Apr 2025 – Present
Senior Support Executive — May 2024 – Mar 2025
Customer Support Executive — Nov 2022 – Apr 2024

- **Loan Funnel Conversion:** Improved loan offer-to-loan agreement conversion from **80% to 90% (+10% points)** by improving the journey between offer acceptance and agreement completion.
- **Mandate Conversion:** Improved mandate-stage success by **6% points** through contextual, multilingual in-app guidance.
- **Application Journey Optimisation:** Redesigned the loan application rejection journey with clearer explanations, FAQs, self-help videos and next steps, reducing recurring rejection-related queries by **55%**.
- **Lending Journey & Servicing:** Worked with existing LOS/LMS workflows to support customer-facing application and status journeys, onboarding, mandate guidance, repayment/EMI queries, due-date communication and SOA/NOC self-service.
- **Transactional Messaging:** Improved in-app communication across lending journeys, using contextual guidance and customer messaging to address friction during application and servicing.
- **AI-Powered Lending Support:** Led end-to-end delivery of a multilingual in-app AI chatbot with Product, Engineering and AI teams, automating approximately **50K** of **1.2L** monthly queries at **97% accuracy**.
- **Operational Efficiency:** Reduced total email queries by **30% QoQ** while business volume doubled, translating recurring customer pain points into product, self-service and automation improvements.
- **Escalation & Customer Intelligence:** Automated sentiment, repeat-contact and CXO-mention alerts, reducing recurring escalation complaints from **30–35 to fewer than 5–6**.
- **AI Agent Assist:** Built an agent-assist workflow combining ticket summaries, sentiment detection, knowledge retrieval and response suggestions, reducing handling time from approximately **5 minutes to under 2 minutes**.

Recognition: 5× SPOT Award | 2× Employee of the Quarter

Tech Mahindra

Customer Relationship Advisor — Mar 2022 – Nov 2022

- Managed voice, email and chat escalations while supporting customer issue resolution and service quality.
- Identified application and website issues and surfaced customer-reported friction for investigation.

SELECTED PRODUCT PROJECTS

KreditBee — Personal Loan Journey Teardown | Independent Product Analysis

- Analysed the personal loan application experience to identify potential friction in onboarding, application progression, customer communication and agreement completion.
- Developed product improvement recommendations and proposed customer journey/UI changes to improve clarity and reduce avoidable friction.

Niva — RAG Financial Knowledge Assistant | Live Project

- Built and deployed an end-to-end financial knowledge assistant using retrieval-augmented generation (RAG), covering ingestion, chunking, embeddings, retrieval, LLM generation and deployment.

EDUCATION & PROFESSIONAL DEVELOPMENT

B.Sc. Computer Science — University of Mumbai | CGPA: 8.79/10
Product Manager Fellowship — NextLeap — Aug 2026 – Nov 2026
